

# Geography AND Sustainability

## Aims & Scope

*Geography and Sustainability* aims to serve as the focal point for developing, coordinating, and implementing interdisciplinary research and education to promote sustainable development through an integrated geographic perspective. The journal encourages wider analysis and innovative thinking about global or regional sustainability through the bridging and synthesis of natural and human sciences.

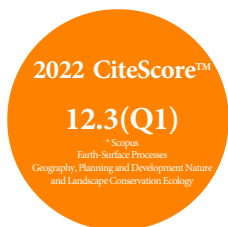

*Geography and Sustainability* encourages wider analysis and innovative thinking about global and regional sustainability by bridging and synthesising natural and human sciences. It welcomes original, high-quality research articles, review articles, short communications, technical comments, perspective articles and editorials on the following themes:

- **Geographical Processes:** Interactions with and between water, soil, atmosphere, ecosystem and human, and their spatio-temporal variations
- **Human-Environmental Systems:** Interactions between humans and the environment, resilience of socio-ecological system and vulnerability
- **Ecosystem Services and Human Wellbeing:** Ecosystem structure, process, services and their linkages with human wellbeing
- **Sustainable Development:** Theory, practice, and critical challenges in sustainable development
- **Geo-data and Models for Sustainability:** Geo-data and models to support sustainable development and decision-making

ISSN2096-7438 (Quarterly, Published since 2020)

# [Recruitment]

## Young Editorial Board Member

GeoSus is recruiting members to establish a Youth Editorial Board, with aims to foster a platform for young scientists to communicate and exchange the cutting-edge research, enrich editorial experience, cultivate research networks, and stimulate potential collaborations. The Young Editorial Board Member (YEBM) appointment duration will be two years and can be extended if duties are fulfilled.

### Qualifications

- PhD degree in the disciplines of geography, ecology, sustainability science and other related fields
- Research experience in geography and sustainability, preferably with a focus on coupled human and natural systems
- A sound publication list, international working experience and editor/reviewer experience are appreciated
- Ability to be actively and responsibly involved in journal development
- Under 45 years of age

### Duties

- Review work: Act as reviewer when invited
- Submission: at least one article submission from yourself, or two recommended submissions from other scholars
- Journal promotion: Help elevate the visibility and influence of the journal and its articles via academic conferences, events, social media etc.
- Events participation and promotion: Be actively engaged in youth editorial board meetings and support journal-related academic workshops, conferences, etc
- Manuscripts handling: Handle manuscripts when invited

### Benefits

- Publishing with Geography and Sustainability will be free of APC
- YEBM with outstanding performance will be annually awarded “Best young editorial board member of the Year”
- All YEBMs and their relevant work will be promoted by the Editorial Office via official journal platform and social media, etc.

### Application submission

Please send an email to the GeoSus Editorial Office ([geosus@bnu.edu.cn](mailto:geosus@bnu.edu.cn)) with an attached CV and a personal statement about your plan for working as a YEBM of Geography and Sustainability. Please input "GeoSus YEBM Application + Name" in the email subject.

The YEBM application deadline is September 30, 2023. Welcome to submit your application! GeoSus looks forward to your joining!
